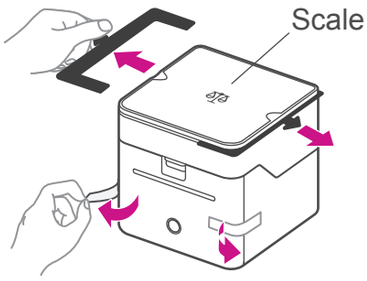
PitneyShip™ Cube Installation Instructions

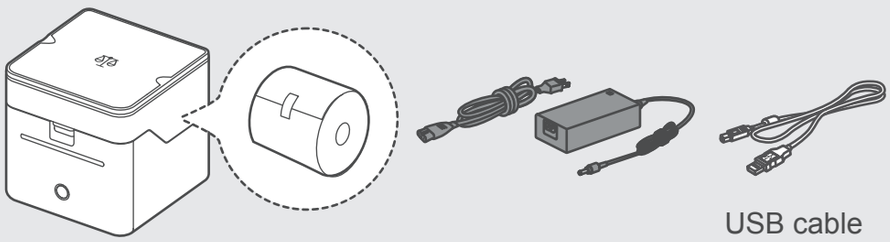
pitneybowes.com/pitneyship-cube-support

1. Unpack Cube.



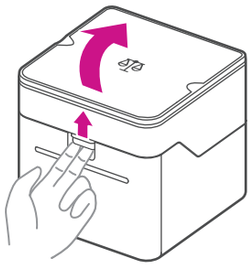
Remove the protective scale spacers and tapes.

What's in the box

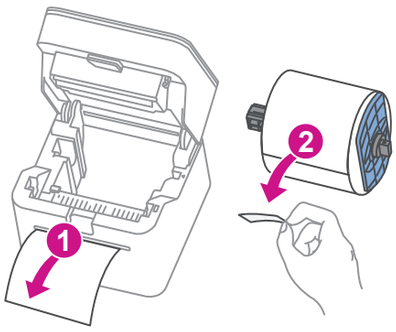


Cube | Pre-installed label roll | Power cord and adapter | USB cable (If using device with a computer)

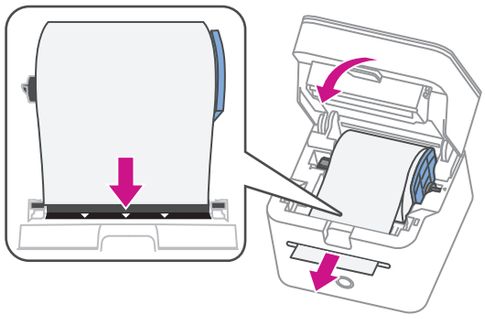
2. Feed the label roll through the slot



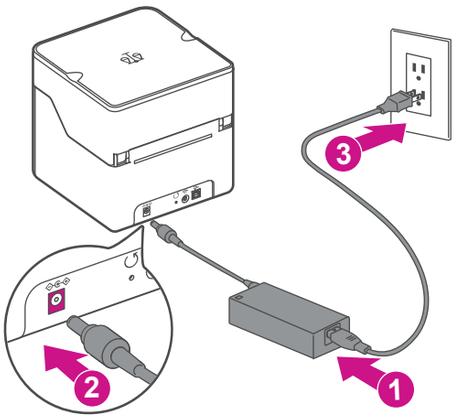
Press up on the latch to open the cover.



1. Remove protective sheet from the slot.
2. Remove tape from the label roll.



3. Connect to a power source and press the power button.



1. Button will light up orange, then white.
2. Cube will generate a blank label strip.
3. Light will flash white until you complete step 4.

4. Complete setup.

To use with your mobile phone

Scan QR code with your phone's camera and install the PitneyShip app from the App Store or Google Play.

Download on the App Store

GET IT ON Google Play

To use with your computer

- Use the USB cable to connect Cube with your computer.
- Then visit cube.pitneybowes.com to complete setup.
